Conference

The National Psychological Medicine Conference

An opportunity for those working to meet the mental health needs of those with LTCs and MUS to benefit from the knowledge and expertise of leading specialists from across the nation.

Thursday 21 March 2019

Village Hotel Leeds North, 186 Otley Road, Headingley, Leeds, LS16 5PR
9am Registration, 9.30am Welcome and 4.30pm, Close

The Five Year Forward View envisaged a shift towards mental health expertise being better integrated into physical health care settings. Initiatives around achieving CORE-24, geared at providing services within emergency and urgent care have dominated the first few years of this strategy. More recently however the spotlight has shifted onto the mental health needs of those with long term conditions and medical unexplained symptomatology and national guidance has been published on how IAPT and secondary care mental health resources should be integrated into general hospital and community healthcare settings.

After the courses, delegates will have learnt:

- How to engage patients towards better outcomes
- How to deliver evidence based brief therapies in the physical health setting
- How to deal with complexity arising in patients with LTCs and MUSs

Programme:

9.30am	Welcome and introduction Chair: Dr Christian Hosker , Consultant Liaison psychiatrist, Leeds and York Partnership NHS Foundation Trust	1.15pm	Updates on neurological functional syndromes Dr Christopher Graham , Senior Lecturer, School of Psychology, Queen's University Belfast
