Your personal information will be used by the ASC to process your application to attend our events.

Booking Flyer

About this course

Beyond well understood side effects of the medication we prescribe some can have severe long-term or even permanent serious adverse effects for our patients. This full day course will provide you with an understanding of these to support your safe and effective practice.

Course Objectives

After attending this course you will be able to understand:

- Understand how some of our medications can be harmful to patients.
- Assessment and monitoring requirements to identify serious adverse effects.
- How to prevent or act to ameliorate adverse effects.
