## Booking Flyer

### About this course

To increase understanding of how the autistic experience may present in women and girls and how this impacts on the diagnostic process.

### Course Objectives

After attending this course you will be able to understand:

- Recognise more accurate indicators of the autistic experience in women and girls
- Consider traditional tools for diagnosing autism and their suitability for use with women and girls
- Understand how biological factors such as puberty, pregnancy and menopause impact

### About our speaker

Dr Becky Hull, HCPC Registered Clinical Psychologist,  
Managing Director of The Divergent Space Ltd

Dr Becky Hull is a neurodivergent clinical psychologist specialising in adult autism. She has worked extensively in the field of neurodiversity and complex adult mental health for the past 20 years and is accredited in the use of the Diagnostic Interview for Social and Communication Disorders (DISCO), The Autism Diagnostic Interview –revised (ADI-r) and the Autism Diagnostic Observation Schedule (ADOS). Until September 2022 she was also employed as the Clinical Lead for Action for ASD, an independent charity provider who held the commissioning agreement in East Lancashire for adult diagnostic autism assessments. She is now the founding director of the Divergent Space Ltd. She is a member of a national network for clinicians working in adult autism and regularly deliver training on autism within the NHS and nationally.
