Workshop

HCR-20 Version 3

Violence Risk Assessment Scheme

Wednesday 7 October 2020

Virtual Event via Zoom

9am Registration, 9.30am Start and 4.30pm Close

HCR-20 tool is the world's leading Violence Risk Assessment instrument. It's a practical tool for the clinical assessment of risk of violence in the mentally disordered, in both forensic and general adult psychiatric services. This workshop is valuable to you, whatever your clinical discipline, whatever stage of training and development you are at. Version 3 is the updated version; launched in April 2013. It is also suitable for you if you have already attended the previous version. HCR-20 is designed to assist individual clinicians and multidisciplinary teams form structured, evidence based, individual risk management plans.

This course aims to provide delegates with:

- Familiar with the basic principles of the assessment and management of the risk of violence
- Competent in the use of the HCR 20 as a basis for conducting risk assessments in your clinical practice
- Able to formulate structured risk assessments and risk management plans

About our speaker:

Dr Kerry Hinsby is a consultant clinical and forensic psychologist with over 15 years' experience in all levels of hospital security, prison and the community. She provides expert witness reports to courts in criminal and child protection cases. Her current post involves working clinically with individuals who have offended and also have a diagnosis of mental illness or personality disorder. Her role includes therapy, supervision, consultation and mentorship. She works within and consults to multi-agency risk assessment, formulation and management processes such as MAPPA, Prevent and parole hearings. She is also trained by the authors of the SAPROF a risk assessment tool often used in conjunction with HCR.
