Workshop

# ADHD in Adulthood

*Assessment and Treatment*

**Thursday 13 October 2022**

LEEDS VENUE (TBC)

9.15am Registration, 9.30am Welcome and 4.30pm, Close

Adult ADHD is no longer a disorder we can ignore. A meta-analysis estimates world prevalence of ADHD in adults to average 2.5% or higher, and is identified in 15% of patients attending general psychiatry clinics. Despite the publication of NICE guidelines, you may still have little experience or confidence in the assessment and management of the disorder. The workshop will cover the principles of screening and assessing for ADHD in adults, distinguishing it from other mental disorder, and considering the impact of co-morbidity. In addition, there will be training in the initiation and monitoring of pharmacological treatment consideration of other non-pharmacological interventions

This course aims to provide delegates with:

- Knowledge on how to screen and assess for adult ADHD
- Be familiar and more confident how to initiate and monitor pharmacological treatment
- Have an awareness of the effectiveness of non pharmacological interventions

## Programme:
