

Section 12 Refresher

Part of the Andrew Sims Centre Mental Health Law Series

Monday 28 September 2020

Clayton Hotel, 7 City Walk, Leeds, LS11 9AT

9am Registration, 9.30am Welcome and 4.45pm, Close

Presented by the Andrew Sims Centre's established Mental Health Law multi-professional training team.

After you have attended this course you will be able to:

- Apply to renew your Section 12 approval through your local approvals office
- Understand recent statute law and appreciate the effects of recent case law
- Discuss how these changes could affect your practice

In recent years there have been significant changes to mental health law and in addition, case law continues to refine the law and thus our practice. These changes, along with the complex interface between the Mental Health Act and Mental Capacity Act, have made it increasingly difficult for practitioners to be confident of their authority for treatment.

This one-day refresher course is accredited by the North of England Approvals Panel (NEAP) as a refresher course for Section 12 approved doctors and is valid for those attending from other parts of England. It will provide an update on statutory changes as well as significant case law and is recommended for all who wish to update their knowledge of mental health law.

Comments from previous participants:

Study Methods and Accreditation:

This course is a recognised pre-requisite for practitioners in England renewing their Section 12 approval. Please contact your local S12 Administrator for full details of the criteria and process for re-approval. The course is eligible for 6 CPD hours subject to your peer group approval. You must attend the whole course to be entitled to a certificate of attendance which will be accepted as proof of completion of a Section 12 re-approvals course.

This conference is suitable for:

Mental health professionals including Section 12 approved doctors, senior mental health nurses and GPs/primary care professionals interested in mental health who would like a general update
